

Maastricht University

International Joint Master of Research in W&O psychology

The Int. Joint Master....

Is a joint program with 3 European Universities: University of Valencia, Leuphaner University, Luneburg Maastricht University;

and includes a mobility scheme...

was accredited March 2019

The European Approach..

- Probably the most challenging aspect was to develop a consortium agreement.. Aligning the systems of 3 uni's in 3 different countries: financial (tuition fee's), judicial (exam boards)
- Working with one party (NVAO), rather than 3, for the accreditation worked well.
- Germany is decentralized, which gives more flexibility.
- Spain needed more convincing of underlying rationale for why these 3 uni's and whether this was truly integrated master..

The European Approach....

- It helps when partners know (and trust) each other.. Various problems have to be overcome..
- Contacts with people who have experience with similar issues helps to find solutions.. (i.e. Prodejiip..)
- Nuffic guide (helps to find examples for exam regulations)

The European Approach..

- Spain still requires all documents to be translated into Spanish....
- But the national authority accepted the European Accreditation automatically
